### JVC GZ-MG130 Hybrid Video Camera

The JVC Hybrid Video camera can record on two mediums-the internal hard drive for digital video or a SD-flash card for still photography. The hard disk drive can hold an impressive 30GB of video-that equals an estimated 37 hours of standard quality recording. You can record at even more detailed settings-up to 7 hours of ultra fine detail video! The SDHC/SD flash card slot will allow you to record, transfer, and travel with your digital still pictures, which can be up to 640x480 resolution quality.

### Detailed CCD Sensor, Incredible Zoom Functions .

You'll capture all of the action (and all of the details) with a 1/6-inch, 680,000-pixel CCD sensor. The 34x optical zoom allows for real physical magnification for recording fast-moving memories, with minimal blur! When you're really, really far away, increase your magnification still further with an ultra-powerful 800x digital zoom. The GZ-MG130 has a 2.7-inch, true 6:9 ratio LCD for widescreen review of video and pictures. Watch what you're filming in real time!

### Easy to See, Easy to Use Controls

The JVC Hybrid Video Camera has controls designed to be easy to use and find. The stick-based control makes it easy to switch between functions-review, record, and save/store both video and still digital photographs. Helpful features like automatically illuminating buttons, battery length/charge information, quick restart standby features, Direct DVD and Direct Backup button, even an included remote control make operating the GZ-MG130 that much easier. This digital video camera even features a USB 2.0 connection for high-speed transfer of images and video directly to your home computer! Join many customers who are part of the JVC community. Treat yourself to the JVC GZ-MG130 Hybrid Video Camera today!
